

Ed Summers
ehs@pobox.com / 240-478-7086
304 Brewster Court, Silver Spring, MD 20901

I am a software developer and social scientist with two decades of experience bridging the worlds of data management and the Web. I have worked in academia, startups, corporations and government. I accelerate the work of agile, highly collaborative teams that focus on knowledge sharing and a commitment to sustainability.

Skills

- web technology: APIs, REST, linked data, web archiving
- languages: Python, JavaScript, Ruby, PHP, Perl, Go, Java, C, Scheme
- data analysis: Pandas, SciPy, Spark, Presto
- infrastructure: Linux, AWS, Ansible, Terraform
- databases: PostgreSQL, MariaDB, Redis, ElasticSearch, Solr, MongoDB
- visualization: D3, Plotly, vis.js, Gephi
- practice: agile, automated testing, continuous integration, standards

Work History

Research Faculty
Maryland Institute for Technology in the Humanities
University of Maryland
08/2014 - Present

- Full stack software development (JavaScript, React, Python, PostgreSQL, ElasticSearch)
- Social media data analysis and visualization (Python, JavaScript, D3, VisJS)
- Linked Data publishing (Python, NodeJS)
- Sustainable data preservation workflows (AWS)
- Automated testing and continuous integration (GitHub)
- Configuration management (Git, Docker, Ansible)
- Agile requirements gathering & project management
- Instructor & Mentor: software development (Python, JavaScript), data science (Python, Pandas, Spark)

Consultant
The Brookings Institution
Washington, DC
June 2021 - September 2021

- Social media data collection and ETL (Twitter, Reddit, Python)
- Network analysis and visualization (Python, React, vis.js)
- Report writing and research data publishing

Visiting Researcher
National Institute of Standards and Technology
Gaithersburg, Maryland
August 2018 - August 2021

- Conducted a multi-year field study to analyze data acquisition methods used in building the world's largest public archive of computer software (NSRL).
- Software development and research design for data data preservation packaging formats (Python, Git, Jupyter, PostgreSQL, BagIt, DFXML, OCFL)

Information Technology Specialist
Library of Congress
Washington, DC
03/2006 - 08/2014

- Digital preservation and repository software design and development (Python, Java, MySQL)
- Lead software developer on the National Digital Newspaper Project (Django, MySQL)
- Created a web based quality assurance tool for handling high volume image digitization projects
- Social media archiving (Twitter)
- Designed and implemented the Library of Congress Linked Data Service
- Specification writing and testing W3C

Consultant
George Washington University
Washington, DC
10/2013 - 12/2014

- Django Web Development
- Voyager ILS integration (Oracle)
- Serial Solutions Summon API integration

Consultant
Nelson Institute for Environmental Studies
Madison, WI
09/2013 - 06/2014

- Web data harvesting (Python)
- Data packaging and publishing (Git, AWS)

Consultant
Hypothes.is
San Francisco, CA
01/2013 - 10/2013

- JavaScript and Python development
- Development of the open source Annotator and Annotator Store projects
- Design and implementation of [cross format annotation] annotation support
- Functional/unit testing (Selenium, Pytest, Travis-CI, SauceLabs)

Consultant
GlueJar
Montclair, NJ 11/2011 - 04/2012

- Django software development
- AWS (EC2, RDS, Route 53)
- Google Books API harvesting
- Google, Facebook, Twitter social media integration
- Automated testing and continuous integration (Jenkins)

Consultant
Yale School of Medicine
New Haven, CT
07/2005 - 12/2005

- Python object oriented design
- Automated testing
- Implemented a reporting framework
- Quixote, PyLucene, MySQL, Red Hat administration

Senior Software Engineer
Follett Corporation
McHenry IL
07/2002 - 03/2006

- Web service design and implementation

- Java, PHP and Perl software development
- Automated testing and performance tuning
- Database administration (Oracle, SQL Server)
- XML metadata harvesting and ingest
- Requirements gathering and project planning

Consultant
Performix Chicago IL
02/2004 - 04/2005

- Object oriented design
- Refactored large Perl codebase
- Perl, Apache, mod_perl, DB2

Consultant
Queens Borough Public Library
New York, NY
06/2004 - 05/2005

- Character encoding conversion
- Controlled vocabulary mining
- Perl data processing training

Consultant
Notre Dame University
South Bend IN
06/2004 - 12/2004

- Training in object oriented programming and unit testing
- High volume metadata harvesting
- Guidance and implementation search technologies
- Ported Java Common Query Language parser to Perl

Senior Software Engineer
CheetahMail
New York NY
02/2000 - 07/2002

- Team lead in a group of 8 programmers
- Developed data processing infrastructure for Fortune 500 clients
- Designed/developed real time reporting system
- Creation and maintenance of web service API
- Expertise in SMTP and HTTP protocols
- Web services development
- Technical representative for partners and sales
- Networking and systems administration as required

Metadata Specialist
Old Dominion University
Norfolk, VA
04/1998 - 02/2000

- SGML and XML data processing for the VIVA Consortium
- Created current awareness system to alert students/faculty to new items in their field of interest.
- ILS and OCLC metadata workflow management

Visiting Assistant Professor University of Illinois
Champaign-Urbana, IL
08/1996 - 03/1998

- Web development (ASP, SQL Server)
- Collection development and cataloging in Sociology and Political Science
- Preservation of 19th century criminology pamphlet collection
- Managed reference services in the Social Science Library

Selected Projects

These are some projects and experiments where I've been directly involved in the technical development.

- Unlocking the Airwaves - NEH funded virtual reunification and minimal computing project
- Documenting the Now - Mellon funded social media archiving practices and tools
- Chronicling America - Library of Congress access to historical newspapers.
- Linked Data Service - Publishing controlled vocabularies at the Library of Congress using Linked Data
- Hypothesis - An annotation tool for the web
- Wikistream - visualize realtime edits to all major language Wikipedias
- Anon - track anonymous Wikipedia edits using Twitter
- Pymarc - a python library for MARC processing
- jobs.code4lib.org - a jobs board for the code4lib community
- Linkypedia - view how websites are used on Wikipedia
- Fondz - generate an archival description for describing born digital content
- Microdata - a python library for parsing HTML 5 microdata
- rdflib - a Python library for processing RDF

- Chaos—Show Me the Metadata, Against the Grain, v.11, no.1, 1998.
- Gateways to Social Work/Welfare on the Net, C&RL News, v.59, no. 3, 1998, p.163-167.

Education

- PhD, College of Information Studies, University of Maryland, 2015-2020.
- MLS, School of Communications, Information and Library Science, Rutgers University, 1995-1996.
- BA English and American Literature, Rutgers University, 1987-1991.

Awards

- 2018 Community Capacity Award. Digital Library Federation.
- 2018 Exemplary Service Award. Society of American Archivists.
- 2015 University of Maryland Scholarship and Research Award
- 2015 Frederick G. Kilgour Award for Research in Library and Information Technology. American Library Association.
